## Your vehicle's suspension system takes a lot of wear and tear!

Roads filled with potholes, driving on unpaved roads, hauling heavy loads and salt used in the winter can make suspension system components fail before their time. An inspection to determine wear or leaks and having your wheels properly aligned after a season of rough driving conditions can alleviate bigger issues and help keep you on the road in a safe direction. Call us today to set up a time for a **Steering & Suspension Evaluation** on your car, truck or suv.

## Steering & Suspension Evaluation

Includes: Test drive for shakes, vibrations, noises and pulls, inspect for damaged and worn out steering and suspension parts, tire inspection, and a consultation on any problem found.

**A \$65 Value – Now \$39**  
**Expires 3/31/18**

Appointment Necessary. Cannot be combined with any other coupon or discount.
